

Communications and Power Quality

Project: Communications and Power Quality Services

Client: CitiPower / Powercor Ltd

Location: Melbourne

Contract Value: \$600,000 p.a.

Contract Duration: July 1998 to November 2010

CitiPower recently renewed the Communications and Power Quality contract with Electrix Pty Ltd for a further three year term. This follows on from the successful completion of previous contracts which extend back to mid 1998.

The contract provides CitiPower / Powercor with the following services:

- HV feeder protection equipment maintenance and repair;
- Supervisory cable network testing and maintenance;
- Communications equipment service and repair;
- SCADA communications network support;
- DISCADA equipment installation and commissioning;
- 24 hour emergency breakdown service;
- Customer load monitoring;
- Quality of supply measurement;
- HV testing of distribution assets; and
- Installation and commissioning of HV Telecommunications Services Isolation equipment in HV enclosures

Fault rectification on HV and LV switching apparatus used in the CitiPower distribution network is also a strong focus for the group.

The specialised skills provided by the Electrix team assist CitiPower to maintain high standards of network reliability and security for the critical Melbourne CBD and inner city areas.
