

Nautilus Apartments - Orewa

Project: Nautilus Apartments - Orewa

Client: Multiplex Construction Ltd

Location: Orewa, Hibiscus Coast

Contract Value: NZ\$1,800,000

The Completion of “ The Nautilus “ apartment block is another string to the bow of the Electrix Projects Department.

The \$1.8m, fourteen month contract saw Electrix install and complete for the entire building the following:

- electrical services,
- security system,
- telephone and Internet system,
- MATV system
- central heating system

The 153-unit apartment block is situated 300 metres back from the fabulous Orewa beach.

The Client (Multiplex Construction Ltd) called for a high quality development aimed at the upper end of the market.

Electrix utilising 18 staff members, and with the emphasis and use of the ITP plans that were put in place from the outset have achieved this high quality.

Some 5,500 light fittings and 50Km of cabling were installed within the building during its construction.

All staff should be commended on their effort throughout this high pressure project, which saw numerous stake holders breath easy on completion.
