

Precinct Apartments

Project: Precinct Apartments
Client: Mainzeal Construction Ltd
Location: Auckland
Contract Value: \$1.92m

Located in Auckland's CBD and at 34 storey's Precinct Apartments is one of the tallest residential buildings in Auckland, affording views over the city and the Hauraki Gulf beyond.

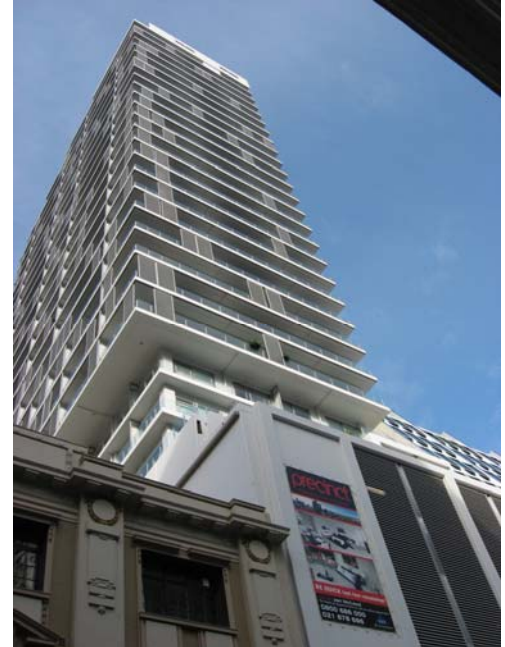

Electrix were commissioned to install the Electrical Data and MATV services to the 194 apartments, retail units, swimming pool, gymnasium and sauna complex, car parking and communal areas. This consisted of a 2000amp Main switchboard, a 1200amp rising Bus Bar, tenancy meter boards, house distribution boards and lighting control.

The project took 14 months to complete and at its peak employed 16 staff.

Some of the key points to the success of the project were: The logistics of getting manpower and materials up and down the building.

The Electrix team's ability to coordinate successfully with other trades, meet critical program deadlines, and absorb numerous design changes.

Once again Electrix were able to meet these challenges and deliver a quality installation with an exemplary on site safety record.
