

Telstra Clear Pacific Events Centre

*Project: Telstra Clear Pacific Events Centre
Client: Counties Manukau Pacific Trust
Location: Manukau
Contract Value: 2.3 million*

The Telstra Clear Pacific Events Centre brings together art, culture, leisure and business under one roof. With its distinctive visual impact and prominent location, the event centre has become a cultural asset for Manukau City.

The multi-functional centre caters for a wide variety of events and provides a high-profile venue. The flagship facility is a 3,000-seat indoor arena with a unique and flexible seating system that allows quick turn-around times and maximum floor utilization. In addition, the centre comprises a 700-seat performing arts centre, various function rooms, multi-use spaces and an outdoor plaza.

The focus on design resulted in an award-winning architecture, and demanded a careful approach for all electrical installations within a modest project budget. Electrix employed a high degree of attention to detail and delivered aesthetic solutions for all visible components to meet the overall design intent.

The project showcases Electrix' ability to cater for the demanding and highly competitive facilities market. The company's provision of tailored service solutions helped contribute to a project outcome that was widely considered a success.
